Layer Composition

Wool - A natural, non-toxic fibre made from sheep's hair, and it is one of the most breathable natural fibres available.

Cotton - One of the oldest, most proven and durable fibres in existence today. It does not require chemical enhancement to work its magic.

Airbond - A gentle, airy material that breathes as naturally as the wind. It embraces comfort while staying resilient and strong, making every touch feel effortless and every use a pleasure.

*Primarily cotton argumented with natural wool and silk layers
A higher content of cotton to help you feel cooler while sleeping*
