Bamboo- Bamboo has excellent temperature management and moisture regulation characteristics creating the perfect micro-climate for an comfortable sleep.

Wool - Wool is a natural, non-toxic fiber made from sheep's hair, and it is one of the most breathable natural fibers available. It is naturally fire-resistant, mold-resistant, and resistant to bacteria and other harmful organisms, making it an ideal material to use when creating bedding.

Cotton - Cotton is one of the oldest, most proven and durable fibers in existence today, and it does not require chemical enhancement to work its magic. It is biodegradable in about three months when left in landfills.

FOUNDATION
